Re: Generic Proceeding to Establish Prices for
BellSouth Telecommunications, Inc.'s
Interconnection Services, Unbundled Network
Elements and Other Related Elements and Services
Docket No.: 2001-65-C

Dear Mr. Walsh:

Enclosed for filing please find the original and 25 copies of BellSouth's Supplemental Direct Testimony of Cynthia K. Cox and D. Daonne Caldwell in the above-referenced matter. BellSouth has a proprietary version of Exhibits DDC-1 and DDC-8 which will be furnished to any interested parties upon their execution of a proprietary agreement.

By copy of this letter, I am serving this testimony upon all parties of record.

Sincerely,

Caroline N. Watson

CNW/jbm

BELLSOUTH TELECOMMUNICATIONS, INC.

SUPPLEMENTAL DIRECT TESTIMONY OF CYNTHIA K. COX

BEFORE THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

DOCKET NO. 2001-65-C

APRIL 25, 2001

Q. PLEASE STATE YOUR NAME, YOUR POSITION WITH BELLSOUTH TELECOMMUNICATIONS, INC. ("BELLSOUTH") AND YOUR BUSINESS ADDRESS.

A. My name is Cynthia K. Cox. I am employed by BellSouth as Senior Director for State Regulatory for the nine-state BellSouth region. My business address is 675 West Peachtree Street, Atlanta, Georgia 30375.

Q. HAVE YOU PREVIOUSLY FILED TESTIMONY IN THIS PROCEEDING?

A. Yes. I filed direct testimony in this proceeding on February 16, 2001, including a Direct Exhibit CKC-1.

Q. WHAT IS THE PURPOSE OF YOUR SUPPLEMENTAL DIRECT TESTIMONY?

A. The purpose of my supplemental direct testimony is to amend my Exhibit CKC-1. Attached to this testimony is a Revised Direct Exhibit CKC-1 that has been amended to include BellSouth's proposed rates for a new loop offering, the

RETURN DATE: OK
SERVICE: OK

Unbundled Copper Loop – Non-designed (“UCL-ND”). As an optional offering in conjunction with this new loop, BellSouth proposes rates for Engineering Information. Further, BellSouth is revising its previously proposed rates for Loop Testing (Elements A.19) as well as its proposed nonrecurring rates for Loop Make-up (Elements J.3 & J.4). The revision to loop make-up affects the nonrecurring rates for all loop elements that include a loop make-up. In addition, BellSouth is revising some of these same loop types as well as other elements to reflect a revision in its cost study associated with the Service Inquiry process. Finally, BellSouth is modifying the rates for the Daily Usage File elements contained in Sections L and M; is modifying the recurring rate for the Line Sharing Splitter – per Line Activation in the Central Office element in Section J.4.3, and is modifying its proposed disconnect rates for two of its Service Order elements (Elements N.1.1 and N.1.7).

Q. PLEASE EXPLAIN THE ORIGIN AND CHARACTERISTICS OF BELLSOUTH’S PROPOSED NEW LOOP OFFERING.

A. BellSouth and various CLECs entered into a Settlement Agreement, which was filed March 27, 2001 in Docket No. 11900-U, *Investigation of BellSouth Telecommunications, Inc.’s Provision of Unbundled Network Elements for xDSL Service Providers* pending before the Georgia Public Service Commission to resolve certain issues in that docket, and further agreed to resolve those issues on a region-wide basis. Pursuant to that Agreement, BellSouth is introducing an unbundled copper loop – non-designed (“UCL-ND”) at rates based upon a South Carolina-specific cost study filed as an exhibit to Ms. Caldwell’s supplemental

1 testimony. The UCL-ND will be a “dry copper” facility in that it will not have
2 any intervening equipment such as load coils, repeaters or digital access main
3 lines (“DAMLs”), and may have up to 6,000 feet of bridged tap between the end
4 user’s premises and the serving wire center. The UCL-ND typically will be 1300
5 Ohms resistance and in most cases will not exceed 18,000 feet in length, although
6 the UCL-ND will not have a specific length limitation. For loops less than 18,000
7 feet and with less than 1300 Ohms resistance, the loop will provide a voice grade
8 transmission channel suitable for loop start signaling and the transport of analog
9 voice grade signals. The UCL-ND will not be designed and will not be
10 provisioned with either a design layout record or a test point. CLECs may use the
11 UCL-ND for a variety of services, including xDSL (e.g., ADSL and HDSL)
12 services, by attaching appropriate terminal equipment of the CLEC’s choosing.

13
14 In addition, as Ms. Caldwell explains in her supplemental testimony, because the
15 UCL-ND is non-designed and therefore does not come with a Design Layout
16 Record (“DLR”), BellSouth is proposing an optional element called Engineering
17 Information that will be provided to CLECs upon request. BellSouth proposes
18 rates for the UCL-ND and for Engineering Information equal to the costs reflected
19 in the cost study filed as an exhibit to Ms. Caldwell’s testimony. Finally, because
20 it is likely that CLECs may desire joint acceptance testing of the UCL-ND,
21 BellSouth has modified its Loop Testing Beyond Voice Grade (Elements A.19)
22 offering to include testing for non-designed loops. Ms. Caldwell’s supplemental
23 testimony provides the cost support for BellSouth’s revised proposed rates for
24 these elements.

1 Q. PLEASE EXPLAIN WHY BELL SOUTH IS MODIFYING ITS PROPOSED
2 SERVICE ORDER RATES.

3
4 A. As explained by Ms. Caldwell, BellSouth has revised its proposed rates for
5 Elements N.1.1 and N.1.7 to indicate that Operations Support System Electronic
6 Interface costs are associated with disconnection requests as well as installation
7 requests. The revised prices on Exhibit CKC-1 are equal to the costs set forth in
8 the cost study attached as an exhibit to Ms. Caldwell's supplemental testimony.

9
10 Q. PLEASE EXPLAIN WHY BELL SOUTH IS MODIFYING THE RECURRING
11 RATE FOR ONE OF THE LINE SHARING ELEMENTS.

12
13 A. In its February 16, 2001, filing in this docket, BellSouth requested that the
14 Commission approve a monthly recurring rate of \$7.63 for the Line Sharing
15 Splitter – Per Line Activation in the Central Office element, identified by Cost
16 Reference No. J.4.3. Subsequently, in connection with the same docket
17 referenced above, BellSouth reached agreement with the involved CLECs
18 concerning the appropriate charge for this element.

19
20 The largest component of the rate for this element was the cost associated with
21 BellSouth's contract with Telcordia Technologies, Inc. to develop a software
22 solution for line sharing. BellSouth has not yet implemented this software
23 solution and therefore its cost should not be included in the line sharing rate
24 element. Under the terms of the regional settlement, BellSouth agreed that it will
25 not seek to establish a permanent recurring rate until: (1) the Telcordia solution

1 has been implemented and is commercially available; and (2) the parties in this
2 docket have been advised in writing of BellSouth's intent to seek the
3 establishment of a permanent rate. BellSouth further agrees that it will only seek
4 to establish a permanent recurring rate in the context of a Commission proceeding
5 in which the Commission must affirmatively approve the proposed rate rather
6 than merely allowing the rate to go into effect.

7
8 Although the regional settlement discussions did not include all of the parties to
9 this proceeding, BellSouth is nevertheless willing to offer any CLEC in South
10 Carolina the modified recurring rate for this element. Pursuant to the regional
11 settlement, BellSouth agrees to charge \$0.61 per month as an interim rate for
12 Element No. J.4.3. This interim rate will be subject to retroactive true-up once a
13 permanent recurring rate has been established and is reflected in the Revised
14 Exhibit CKC-1 attached to my supplemental testimony.

15
16 Q. PLEASE EXPLAIN WHY BELL SOUTH IS MODIFYING THE RATES FOR
17 THE DAILY USAGE FILE ELEMENTS.

18
19 A. BellSouth recently became aware that the estimates for the forecasted volume of
20 usage records were inadvertently understated in the cost study. The impact of
21 adjusting the cost study inputs to reflect an increased demand forecast results in a
22 decrease in cost. As such, the rates for these usage file elements are lower than
23 the rates filed with my direct testimony on February 16, 2001. The supplemental
24 testimony of Ms. Daonne Caldwell explains in greater detail the specific input
25 files that have been modified.

1
2 Q. WHAT OTHER ELEMENTS ARE IMPACTED BY THE REVISIONS TO
3 BELLSOUTH'S COST STUDY?

4
5 A. First, as Ms. Caldwell explains, BellSouth has adjusted a specific cost study input
6 that results in reductions to BellSouth's manual Loop Make-up element
7 nonrecurring costs – specifically, Elements J.3.3 and J.3.4. In addition to these
8 two elements, certain nonrecurring costs for the following loop types are affected
9 by this adjustment: 2-Wire ADSL, 2-Wire and 4-Wire HDSL, and both the long
10 and short versions of the 2-Wire and 4-Wire UCLs, since this same input is used
11 in the nonrecurring cost development of these elements.

12
13 Second, BellSouth is also revising its loop elements that contain a Service Inquiry
14 step in order to ensure that service order related costs are properly applied. This
15 revision impacts the Loop Make-up versions of the loop types mentioned above as
16 well as loop conditioning and selected sub-loop elements. In each instance,
17 BellSouth's revised proposed rates as shown on Exhibit CKC-1 are equal to the
18 costs sponsored by Ms. Caldwell.

19
20 Q. DOES THIS CONCLUDE YOUR SUPPLEMENTAL DIRECT TESTIMONY?

21
22 A. Yes.

23 (#262010)
